

SKILLS: React, Redux, Python, Flask, JavaScript, SQL, HTML, CSS, Express, Sequelize, Node.js, git

PROJECTS:

SHORTS Express, Pug, JavaScript

[live](#) | [github](#)

This is a clone of the website Medium but for short stories instead made in a group, using Javascript, HTML, CSS, and Express

- Programmed 'following' feature to give the ability to follow other users to see their posts using Express API queries to filter and display posts based on who a user is following
- Developed viewing shorts feature to give the ability to view all of the shorts on the website utilizing Pug and JavaScript list out all of the posts based on time of post
- Implemented Likes feature to be able to like and unlike a user's post using JavaScript manipulation to set hidden attribute to show like and unlike

GAMESTAGRAM Flask, ReactJS

[live](#) | [github](#)

This is a clone of the website Instagram but for games only made in a group, using JavaScript, HTML, CSS, Flask and Python

- Built most API routes for effective querying of images and users to be able to display proper information utilizing flask and python
- Engineered AWS S3 Buckets to be able to upload images from file system and store on the cloud for more efficient storing and sorting of images.
- Formulated username displaying with correct user using React-Redux and JavaScript logic to link two tables info together

POKÉUP Flask, ReactJS

[live](#) | [github](#)

This is a clone of the website OfferUp but for Pokémon made independently, using JavaScript, HTML, CSS, Flask and Python

- Programmed ability to add posts to custom made lists using store in React Redux
- Organized posts based on categories feature by utilizing Flask and SQLAlchemy feature to link two tables through a single row

EXPERIENCE:

AT&T Retail Store Manager

Prime Communications

Nov 2018 - Jun 2021

- Boosted sales from a store doing less than 50 phone sales per month to over 100 phones per month and increasing accessory sales bring my store to be top 10 in the country
- Was able to raise a team with an environment focused on customer service and maximizing every opportunity

Consultation Agent

Geek Squad

Apr 2016 - Mar 2017

- Diagnosed computers, speakers, phones, tvs, and much more in an efficient manner to be able to resell certified checked products.
- Coordinated appointments with correct agents to fix viruses and corrupted computers.
- Boosted overall sales of software and security over 50% per hour
